South Carolina's [Paperless Wing](#) system for members has undergone a bit of a facelift, and more improvements are planned to help you find information faster and satisfy your reporting requirements more easily.

Several of the outdated modules have been removed, and a new menu system has been installed so that you can get to where you need to go faster and more logically. We've also upgraded our SSL (security) certificate, meaning that you'll no longer get those annoying "untrusted site" messages!

The Paperless Wing is here to meet needs specific to South Carolina, such as our Document Library and e-mail lists. So while you may be able to "see" some information such as your membership records and contact information on the Paperless Wing, you'll still need to update those items on the national [e-Services](#) site. Periodically, that information will be downloaded to the Paperless Wing.

We hope you'll find the upgrade easier to use, and we look forward to providing you with tools to make your volunteer experience easier and more productive!
